**N**o extra charges will be levied for using Nol or credit cards, but booking fares for taxis are likely to increase. The RTA is studying a proposal that calls for a hike in fares for pre-booked taxis.

According to Eisa Abdul Rahman Al Dossary, CEO of RTA's Public Transport Agency (PTA), the authority has been continuously upgrading taxi services, especially with the new dispatch system D8 the taxi booking service has gone to the next level. "We are spending a lot of money to continuously upgrade the system and we proposed to the RTA board that we need to hike fares for the booking service with new D8 system. The board is currently studying the proposal and hopefully we will have a go-ahead soon," said Al Dossary.
